

# Adobe InDesign CC/CS6

## Level 1

### Course Overview

In this 2-day course, you will learn the essentials of using InDesign for creating professionally-designed documents. Following an overview of the InDesign environment and workspace you will learn how to create a new document, add text and graphics, add threaded text frames and how to convert other application files to InDesign. You will also learn how to enhance documents by applying colors and swatches; applying fills, gradients and strokes; formatting characters and paragraphs; creating and applying styles; developing layers; and applying transparency and transparency flattener presets. You will learn how to arrange, align, transform and edit objects. You will learn how to create, modify, and format tables. You will learn how to finalize a document, check a document for problems, package files, prepare PDF files for web distribution, and export PDF files for printing. Prerequisite course: Windows Level 1 or equivalent experience and experience with a word processing program.
