

# Adobe Photoshop CC/CS6

## Level 2

### Course Overview

In this one-day course, you will learn the more advanced tools in Photoshop to enhance images and work with videos. You will learn how to create and edit vector paths, how to work with layers, and how to automate tasks in Photoshop. You will also learn how to use the video tools available in Photoshop to edit and export video files. Finally, you will learn how to work with other Adobe applications. Prerequisite course: Adobe Photoshop CS6 Level 1 or equivalent experience.
